

PennDOT Encourages Motorists To Call 1-800-FIX-ROAD Or Go Online To Report Potholes

PennDOT is reminding motorists that potholes and other roadway concerns on state roads can be reported by calling 1-800-FIX-ROAD or visiting www.dot.state.pa.us and clicking on "Submit Feedback."

As weather permits, PennDOT crews are working daily to repair potholes on state highways throughout the five-county Philadelphia region. Crews have placed 4,000 tons of patching material on state roads in the region since December 1, 2014.

When reporting a pothole, citizens are asked to be as specific as possible when providing pothole locations or other maintenance concerns such as deer removal or signing issues. For state routes, citizens must report the county, municipality, street name and route number, or the state route (SR) number that can be found on small black-and-white signs posted along state roadways. Citizens should also provide a description of any familiar landmarks that will help PennDOT locate the problem area.
