

LEVITTOWN STATION CONSTRUCTION ALERT

STARTING OCTOBER 15, 2018

Starting October 15, SEPTA will begin Phase 3 of construction. Trains will board from the new platforms (as shown on the drawing). The new pedestrian overpass and stairs will be open while the elevators remain under construction. The existing pedestrian tunnel will be closed.

All traffic should enter and exit the station on the inbound side at the intersection of Levittown Parkway and Route 13. The inbound entrance at Oxford Ave and the outbound entrance at Fallsington Ave will be closed. Pedestrian access on the outbound side will be provided at Oxford Ave.

Customers should use the new south inbound parking. The existing north inbound and outbound parking lots will be **closed** for the remaining duration of construction. Additional parking is available at St. Michaels Church or Bristol Station. Only park in designated spaces and keep travel lanes clear. Any vehicle parked illegally will be ticketed and towed by Rob's Towing, 215-826-9200 | 2501 Old Rogers Road, Bristol PA 19007.

SEPTA greatly appreciates your patience and understanding while these critical construction activities are completed. If you have any questions, please contact Constituent Relations Coordinator, Meghan Babcock – mbabcock@septa.org.
